I. This Warranty applies if any of the following Warranty Conditions occurs during the time period specified.

a. Premier Metals warrants that the color coated finish will NOT crack, check or peel (lose adhesion). This does not include minute fracturing, which may occur in proper fabrication of the building parts. Failure due to substrate corrosion is excluded.

b. For thirty (30) years from installation or thirty and one half (30½) years from coating application, Fluropon® chalks in excess of ASTM D-4214 method A number 8 rating when properly maintained as described herein.

c. For thirty (30) years from installation or thirty and one half (30½) years from coating application, Fluropon® changes color more than five (5.0) Hunter delta-E units as determined by ASTM method D-2244. Color change shall be measured on an exposed painted surface that has been cleaned of surface soils and chalk, and the corresponding values measured on the original or unexposed painted surface. Color changes may not be uniform on surfaces that are not equally exposed to the sun and elements and Premier Metals does not warrant that color changes will be uniform.

d. Some colors may not meet our high standards. The Warranty applies only to colors that are listed on our approved color list.

2. If a Warranty Condition occurs and all of the other requirements of this Warranty are met, Premier Metals will supply the following Warranty Benefits: Premier Metals will pay for labor and material reasonably necessary to repaint, repair or replace, at our option, the metal panels showing the Warranty Conditions. The Warranty Benefits shall not exceed the original purchase price of the affected metal panels (not including any accessories or attachments) or the remedy provided in any other warranty provided to the building owner, whichever is less, even if our limited warranty fails of its essential purpose. This Warranty will continue to apply to any metal panels that were repainted, repaired or replaced due to a Warranty Condition, but only for the unexpired portion of the Warranty period applicable to the original part.

3. To receive Warranty Benefits for a Warranty Condition, you must:

a. Send written notice of the Warranty Condition within thirty (30) days of the appearance of any detectable defect to the address listed above.

b. Provide access to the affected panels and site.

c. Assist us as necessary in determining the exact cause of failure.

d. Provide such documentation as we shall request to confirm the Warranty Condition, including records sufficient to identify the Fluropon® coating involved.

4. We are not responsible and provide no Warranty Benefits for any damage or condition resulting from any of the following circumstances or any other circumstances beyond our control:

a. Acts of God, falling objects, explosions, fire, external forces or other such similar or dissimilar circumstances;

b. Harmful fumes or foreign substances in the atmosphere, or salt spray;

c. Defects in the substrate metal or in its fabrication or embossing;

d. Significant differences in insulation below coated metal panel;

e. Fluropon® which has been damaged due to moisture entrapment in coils and/or bundles during transit or storage or which has been stored or installed in such a way that allows standing water on the coating;

f. Failures or damage resulting from substrate exposure or corrosion at cut/bare edges or failure of the metal substrate;

g. Fluropon® that has been stored/installed in such a way that allows contact with animals or animal waste;

h. Mishandling of Fluropon® or of any substrate coated with it, including abuse, alteration, modification, improper use or storage; or

i. Attachment or adhesion of materials or items such as snow guards and solar panels to the coating.

5. No Warranty is provided for Fluropon® coatings on any substrate that is subjected to sea spray or installed on property located 1,500 or fewer feet from a salt-water environment.

6. This warranty applies only to building parts installed on buildings within the Continental United States, Alaska and Canada. This Warranty will automatically expire upon any change or transfer of ownership of the property on which the metal coated with Fluropon® is originally installed. The warranty contained in paragraph 1a is limited to 40 years.

7. This is our only warranty concerning Fluropon® coil coatings. Except for this Warranty, WE MAKE NO WARRANTIES, EXPRESS OR IMPLIED AND DISCLAIM ALL IMPLIED WARRANTIES INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OR FREEDOM FROM PATENT INFRINGEMENT. PREMIER METALS WILL NOT BE LIABLE FOR ANY SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES. We have no other liability with respect to Fluropon® coal coatings, whether based on warranty, negligence or any other legal theory.

8. This is our complete warranty. It lists all of our obligations regarding our Fluropon® product coatings.

This warranty is for you to fill out and keep for your records. Please do not mail the warranty to us.
